5. System Description	SLDCADA is a Time and Attendance System that has been chose as the DoN standard. SLDCADA allows for centralized or distributed input, provides the capability to track civilian, military, as well as contractor labor hours against job order numbers for financial purposes, and hours against type hour codes for pay purposes. Other notable features include a leave availability check, prior pay adjustments, exception reporting, ability to query DCPS files (MFR and BIMER) for easy access to employee information by authorized users. SLDCADA provides single Time and Attendance screen for input, correction, certification, prior pays, and review, which ultimately reduces the training effort and makes user input easy. All reports are online, resulting in a reduction of hard-copy reports. Interfaces are in place with DCPS, the DoD standard financial systems (DIFMS, STARS-FL, STARS-HQ), as well as other various local financial systems. SLDCADA is parameter driven so it can be tailored to meet individual site requirements. This allows the application to be customized, thereby providing a site with maximum flexibility.

Flow chart

The flow chart below shows the relationships between the SLDCADA and the DCPS, DIFMS, and ILSMIS.

- MER, BIMER, extended labor, 15-day adjustments, and gross pay reconciliation flow from the DCPS to the SLDCADA.
- Civilian T&A flows from SLDCADA to the DCPS.
- Gross pay reconciliation is moved over to the DIFMS.
- Military T&A Civilian Labor (reformatted DCPS files) moves from the SLDCADA to the DIFMS.
- JON and Shop Validation and Cost Data move from the DIFMS to the ILSMIS.
- 1160 Interface goes from the ILSMIS to the DIFMS.
- DCPDS, STARS-FL, and STARS-HQ feed into the DCPS—where manual adjustments take place.
